

Join us in the Cyber-Physical Systems revolution!

HUBCAP has a €3.2 million equity-free fund for SMEs to experiment and innovate with digital technologies.

The HUBCAP open calls aim to upgrade the capacity of SMEs to leverage Model-Based Design (MBD) technology in Cyber Physical Systems (CPS) and ultimately deliver new products and services in multiple application domains. The programme provides services and technical expertise by seven Digital Innovation Hubs, and offers financial support for European SMEs to experiment in highly innovative, cross-border experiments.

HUBCAP will organise three series of open calls throughout 2020-2022.

Call #1 Pull

Does your SME/midcap provide existing and marketable CPS & MBD tools and services? Integrate your asset in the HUBCAP platform and find potential new customers and collaborators in the subsequent open calls.

1000€
per SME

Call #2 Experiment

Is your SME/midcap looking to embrace digital innovation? Connect with a supplier from the HUBCAP platform and receive tailor-made support and services to co-create and experiment with CPS & MBD tools.

30,000€ to 75,000€
per consortium of 2 SMEs

Call #3 Innovate

Develop and implement highly innovative and challenging CPS & MBD experiments. Create new products and services and benefit from business and technical support from the HUBCAP experts for highest impact.

Up to 200,000€
per consortium of 2-3 SMEs

Join. Co-create. Go-to-market.
