

# We are looking for two-SME consortia wanting to adopt and experiment with Model-Based Design (MBD) tools for Cyber-Physical Systems (CPSs).

## Call #2.1 EXPERIMENT

**HUBCAP** is a one-stop-shop for European SMEs who want to embrace digital innovation using model-based design technology for CPSs – encompassing products that combine hardware and software across a range of domains including Mobility, Industry, Health, Energy, Environment, and Robotics. The new HUBCAP web platform hosts the tools you need to scale ideas and grow your business, supported by experts from our Digital Innovation Hubs (DIHs).

Source potential partners for your application and integrate already existing MBD tools from the HUBCAP ecosystem or implement these digital solutions in a new CPS solution!

### What your consortium will receive:

- Funding between €30k and €75k (per consortia)
- Opportunities to connect with users and suppliers from various industries
- Opportunities to access MBD CPS solutions and services provided by specialised entities
- The chance to reach potential new customers
- Access to a sustainable ecosystem of stakeholders active in multiple CPS domains
- Access to support services and expertise from our DIHs

**Open call deadline: 4 March 2021 (17h00 CET)**
